About Me

To work in an organization where by my acquired skills, training & knowledge can be used in full capacity to fulfill the objectives of the organization while achieving personal and professional growth.

projects

Task Master

Task Master is a robust task management application developed using Django. This web-based platform offers a streamlined approach to task creation, assignment and ultimately boosting productivity and fostering seamless collaboration.

Iphone rating & price analysis

I conducted an in-depth analysis of iPhone ratings and prices using Python and PowerBI, yielding actionable insights for decision-makers. Leveraged data visualization techniques to present findings effectively.

Savvy IT Solutions

Proficiently crafted a website for Savvy IT Solutions using HTML, CSS and Javascript featuring comprehensive company information and services.

Certificates

- Web Development Fundamentals
- Introduction to HTML and CSS
- JavaScript Tutorial for Beginners
- Git and GitHub for Beginners
